Halalawayah/Halleluyah

## NOTES

\*So called Full Bright Moons are considered here to be the New Moons.

The Khadash/Moon dictates whether there are 12 months or 13 months in a given year.

- **Khadash 1** = *Babel translation (English):* Month 1
- **The 13<sup>th</sup> Moon:** This moon (month/Khadash) is added if the number of the moon/Khadash falls short of the appointed time: Abib/Ahbayab (*babel translation; the portal, Spring/Equinox approx. 20th March*). That is, one moon/khadash length of days is added to meet the coming Abib/Ahbayab the fullness of pollination (Spring).
- haraahshawan lakhadash = *Babel translation:* The first for months or first month
